PALLET/PLATEN COVER MASK

Masking paper used to temporarily cover a print table. Protects and permits fast and easy removal of adhesive and fiber buildup. Pays for itself in labor savings and elimination of platen cleaning chemicals.

PROOFING PELLON SQUARES

Economical woven test fabric for proofing and registration check when setting up a print job. Good density balances cost vs. ability to still be presentation grade. Available in White or Black, 16"x18"

MISCELLANEOUS PRODUCTS

Many products we carry are not listed in this catalog. We stock a variety of supplies for a variety of printers. Some are highly specialized for unique applications. Others do not have a commonly high use or demand. If it's for the screen print process, but not shown in our literature or website, contact us, and if we don't have it we'll tell you where you could find it available.

Tech Tip:

When printing mesh jerseys, spandex, 100% cotton sweatshirts, or lightweight 50/50 blends; table tack is important for fast and easy load / unload. In production. Choosing the best option is often managed by learning 2-3 different tack methods if the variety of production dictates it. Do streamline if possible.

AST might stock it:

A good example of an uncommon stock supply is the venerable "Jiffy Hinge Clamp".

This hardware can make a flat board into a jig holding screen and stock.
