301 W (HO) HI-OPAQUE	HIGH-OPACITY WHITE FOR MAXIMUM INK COVERAGE	86-160

Dye-discharge printing inks

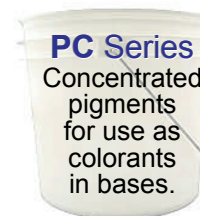

Ultimate soft-hand, bright colored images on dark color garments can be produced by printing this ink on 100% cotton shirts that have dischargeable dyes. The ink "bleaches" the printed area on the garment to a natural base (non-dyed) color after heat curing.

Mix in RC, OW, HO, and PC colors and make a 1-step process. Always pretest garments intended for discharge for reliable results.

DSPS Clear DISCHARGES DYE ONLY.

DSPS White PREMIXED 1-STEP WHITE.

ZFS POWDERED ACTIVATOR (*Formaldehyde present*)
 (mixed 6-8% by weight into DSPS ink blends)

MADE USING MATSUI **NEO** COLOR DYES

Additional bases available:
METALLIC SHIMMER BASE
STRETCH BASE, POLY BASE,
PUFF BASE, CRACKLE BASE
