

PLASTISOL STOCK COLOR INKS

COLOR YOUR PRODUCTION NEEDS WITH THE BEST FORMULATIONS

AST stocks the most popular colors from two of the leading industry manufacturers of textile printing inks. These primary formulations are legendary.

We have a variety of thicknesses, pigment loads, and surface textures for you to choose from.

For all the variety of fabrics requiring decoration, AST has the best choices for you.

Dye-blocking, "low-bleed" Inks

Designed to block migrating fabric dyes that discolor prints. Intended for use with 100% polyester and other synthetics.

Athletic Jersey Inks

Durable and flexible gloss ink for Sports Uniform printing. Formulated for use on a variety of synthetic fabrics.

High Opacity Inks

High pigment load, heavy body inks for direct printing on dark garments. Some colors available are low-bleed formulas.

Standard Opacity Inks

Versatile, soft, and easy to print inks for direct printing on white, light colored, and underlay bases. 50+ stock colors.

FORMULA	SURFACE	OPACITY VISCOSITY		MESH
MAXOPAKE PADM INKS	Dense pigment formulas for the utmost opacity. Ready to print, but ready for expert basing down to become multipurpose, if necessary.	HIGH	MED/HIGH	60 to 305
ULTRASOFT PLUS INKS	Good, all-around ink series leaves a very soft feel to the print when using higher meshes on light color garments. Need underlay on darks.	MED	LOW	110 to 380
ATHLETIC PATH INKS	Good for uniform numbering/lettering and designs where a thick and durable ink deposit is needed. i.e.- outerwear, active-wear.	HIGH	HIGH	86 to 255
LOW BLEED POLY INKS	Ultimate, HO-LB series is excellent for use on unstable dyed synthetic weave garments and jersey fabrics. Always pretest to verify blocking.	HIGH	MED/HIGH	86 to 255
