PRODUCT FEATURES

- Halogen / UV Fluorescent Light Source
- Extra Large Screen Capacity
- Digital Auto-Shut-Off Timer with Auto-Repeat Function
- Easy Cleaning / Maintenance
- Durable Hold-Down Blanket
- Powerful Vacuum Hold-Down
- Two-Part Cabinet, Easy Installation

The Point1000 provides high-resolution screens at an affordable price by bringing together the best of 2 different light sources. The 1000 watt Halogen Point Light Source enables you to capture halftones and fine lines while the UV Fluorescent Lights help speed exposure. These features combined with a Digital Timer and Extra Large Screen Capacity make the Point1000 an ideal choice for screen printers seeking higher quality images and increased throughput. The Two-Part Cabinet design enables this unit to fit through a standard doorway.
