

TRANSQUICK & TRANSQUICK DIGITAL

Heat Transfer Machines

TransQuick and TransQuick Digital offer the best of both economy and functionality. In contrast to comparably priced units, TransQuick offers both a digital timer with audible alarm and an analog temperature indicator on all models. TransQuick Digital offers both digital time and temperature control. What's more, both TransQuick and TransQuick Digital have heavy duty construction and maximum leverage for easy open and close. TransQuick's wide opening heat platen makes for easy loading and unloading of your imprints. Transferring images onto Caps is a breeze with TransQuick CT46, while TT1515, TT1515D and TT1620D offer a wide range of adjustability to accommodate materials up to 3/4" (19mm) thick.

PRODUCT FEATURES

- Adjustable Temperature Control
TransQuick: Analog Temperature Indicator
TransQuick Digital: Digital Temperature Control
- Digital Timer with Large Display and Audible Alarm
- Maximum Leverage for Easy Open and Close
- Accommodates a Wide Range of Material Thicknesses up to 3/4" (19mm)
- Wide Opening for Easy Loading and Unloading
- Adjustable and Even Pressure
- Floating Upper Heat Platen
- Over Center Pressure Adjustment
- Thick Heat Platen for Maximum Heat Retention
- Durable Powder-Coated Finish

PART	DESCRIPTION	POWER
11702	TRANSQUICK TT1515, 15X15" (38x38cm) Heat Transfer Machine	115V, 50-60Hz, 1600Watts, 14Amps
11705	TRANSQUICK TT1515, 15X15" (38x38cm) Heat Transfer Machine	230V, 50-60Hz, 1600Watts, 7Amps
11700	TRANSQUICK DIGITAL TT1515D, 15X15" (38x38cm) Heat Transfer Machine	115V, 50-60Hz, 1600Watts, 14Amps
11703	TRANSQUICK DIGITAL TT1515D, 15X15" (38x38cm) Heat Transfer Machine	230V, 50-60Hz, 1600Watts, 7Amps
11706	TRANSQUICK DIGITAL TT1620D, 16X20" (41x51cm) Heat Transfer Machine	115V, 50-60Hz, 2000Watts, 18Amps
11709	TRANSQUICK DIGITAL TT1620D, 16X20" (41x51cm) Heat Transfer Machine	230V, 50-60Hz, 2000Watts, 9Amps
11712	TRANSQUICK CAP CT46 4x6" (10x15cm), Cap Heat Transfer Machine	115V, 50-60Hz, 900Watts, 8Amps
11713	TRANSQUICK CAP CT46 4x6" (10x15cm), Cap Heat Transfer Machine	230V, 50-60Hz, 900Watts, 4Amps
